DETAILED ACTION

This application is a national stage entry of PCT/EP03/5102, filed December 16, 2003 and claims priority to U.S. Provisional Application 60/435,479, filed December 20, 2002 and European Patent Application No. 02102865.9, filed December 20, 2002. Claims 1-8 and 11 are pending in this application and are examined on the merits herein.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The identities of compounds which fall under Formula I cannot be positively ascertained because the point at which R¹, R², R³, and R⁴ are connected to the core has not been indicated. For example, in claim 1, R³ is (2-6C)heterocycloalkyl(1-4C)alkyl. It is unclear whether R³ is bonded to the core structure from the alkyl or the heterocycloalkyl portion of the substituent.

Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: there is no subject for the administration of the composition of claim 8. The population to which the composition will be administered is not defined.

Allowable Subject Matter

Claims 1-8 and 11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
